Mobile: +91-8595656302

SKILLS

- **Languages:** Java, Python
- **Frameworks/Libraries:** NumPy, Pandas, Scikit-Learn, Matplotlib, Seaborn, HTML, CSS
- **Tools/Platforms:** MySQL, Excel, Power BI, VS Code, Jupyter Notebook
- **Soft Skills:** Problem-Solving, Team work, Project Management, Adaptability

PROJECTS

Sales Insights – Sales Data Analysis and Prediction | [Link](#)

Jan' 2025 - Jul' 2025

- Built an interactive sales analytics dashboard using Python, Pandas, and Streamlit, integrating Linear Regression to forecast future sales.
- Analyzed declining sales patterns to uncover key business drivers, seasonal trends, and performance gaps across regions and products.
- Trained and optimized the prediction model to achieve **~85% forecasting accuracy**, significantly improving business visibility and strategic planning.
- Enabled data-driven decision-making by presenting clear insights and actionable trends through dynamic visualizations.

Heart Disease Prediction Using Machine Learning

Since Nov' 2025

- Addressed the challenge of messy cardiovascular data by cleaning missing values, removing outliers, and preparing high-quality features for model training.
- Performed detailed EDA to uncover key health indicators influencing heart-disease risk and guide model selection.
- Trained and optimized multiple ML classifiers, tuning parameters to achieve ~80% accuracy for reliable early risk detection.
- Improved model interpretability by identifying the most influential features, enabling clearer medical decision-support insights.

TRAINING

Cipher Schools (Ed-tech company) | [Certificate](#)

Jun' 2025 -Jul' 2025

- Created a simple Dice Game for a console to apply basic concepts of programming and enhance logical problem-solving skills.
- Loops, conditional logic, random number generation, and score tracking were used to implement two-player gameplay.
- Wrote a user-friendly, straightforward console interface to handle user interactions.
- Demonstrated great capabilities of control flow and game logic by providing a fully playable game that announces the round winners and the final winner.

CERTIFICATES

- Java Programming – [NeoColab](#) Jan' 2025 – May' 2025
- Data Structures & Algorithms – [NeoColab](#) Aug' 2024 – Dec' 2024
- Responsive Web Design Developer Certification – [freeCodeCamp](#) May' 2023 – Oct' 2023

ACHIEVEMENTS

- Solved 100+ Data Structures & Algorithms problems on LeetCode to strengthen problem-solving, algorithmic thinking, and coding efficiency.
- Earned a 3-Star JAVA Badge on HackerRank, demonstrating advanced proficiency through consistent high-accuracy problem solving.

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.51 Since Aug' 2023
- **Modern BP Public School** Faridabad, Haryana
Intermediate; Percentage: 81.4% Apr' 2020 – Mar' 2022
- **Modern BP Public School** Faridabad, Haryana
Matriculation; Percentage: 79.4% Apr' 2019 – Mar' 2020
